

Dear customers and business partners,

In these difficult and challenging times I would like to let you know that we take care of the safety of our employees and the care for our partners and customers. The measures recommended by the government are applied to the best of our abilities.

That said, SurCom is operational with half of our people working from home and the other half actively at our new facilities in Ede. Fortunately we have ample space available to guarantee our safety.

This means, the typical accessibility of all company areas via email and telephone are safeguarded. Personnel appointments are still possible on a one-on-one basis at our location, where we have introduced the recommendations of the government. And to avoid personal appointments, we are also happy to offer alternative online meetings.

There are currently no restrictions with regard to production, assembly, development and logistics on our side. If this changes we will let you know.

If you have any specific question regarding the above you can contact the known account managers direct or use info@surcom.nl as a generic point of contact for the company.

We will be happy to answer any questions or respond to critical situations.

Be safe

Jacques Schaap

CEO
